Screen Views

Work Screen
Shows the most important settings, once the unit is configured. Displayed automatically after 45 sec of inactivity.

Back   Save   Exit

Sub-menu Screen
Select feature by scrolling.

Swipe left or right to change value between the arrows

Screen Lock

To activate the touch screen lock, press the ON button whilst powering on the unit for 9s. The lock symbol indicates that the touch screen is locked.
To unlock switch the unit off and on again.

Connection

The ONE should only be used between -10°C and 40°C. Only charge the ONE between 0°C and 40°C.

USB-C socket for charge and firmware update.

USB C Charger
Use only the original Elinchrom One USB Charger to recharge the built-in Li-Ion battery.

When the unit is OFF the side logo color shows the charge status:
Red: recharging
Orange: almost charged
Green: the unit is charged

Recharging time: 90 min. to 100%

Battery capacity min./max power: 8000 / 800 flashes per charged battery.

Reset To Default Settings
Switch the unit on, and release the ON button.
When the EL Logo appears press immediately the "ON" and "Menu" button for 4 seconds until the display shows "Reload all default parameters".
